Children of Holocaust Survivors: The Impact of Trauma In Their Lives

A PCTI Care Program

- ✦ What are the effects of parental trauma on the children of survivors while growing up and today?
- ✦ What are common characteristics and psychological concerns of the "Second Generation"?
- ✦ How can we cope better with some of their vulnerabilities, and learn to capitalize on the unique strengths of children of survivors?

The lecture will be followed by an interactive Q&A and a discussion with the audience.

Presenter:

DR. IRIT FELSEN

is a second generation Holocaust survivor; she is a member of Yale Trauma Study Group, Genocide Studies Program. She is a clinical specialist providing trauma interventions.

WHEN: Monday, February 10, 2020 | 6:00 P.M.

WHERE: Shirley & Barton Weisman Delray Community Center
7091 W Atlantic Ave, Delray Beach, FL 33446

PLEASE RSVP TO: 561.852.5058 | VandaM@ralesjfs.org
